# KOMPAN Design Studio **COROCORD** – CONCEPTUAL SKETCH

KNS8500832, US

A scorpion structure focusing on climbing and balancing activities, designed for a nature and insects playground

KNS8500855, AU

Inspired by the banksia flower, this almost 9 meters high tower. Main focus is climbing and the impressive height, making it a true landmark.

KNS8500857, AU

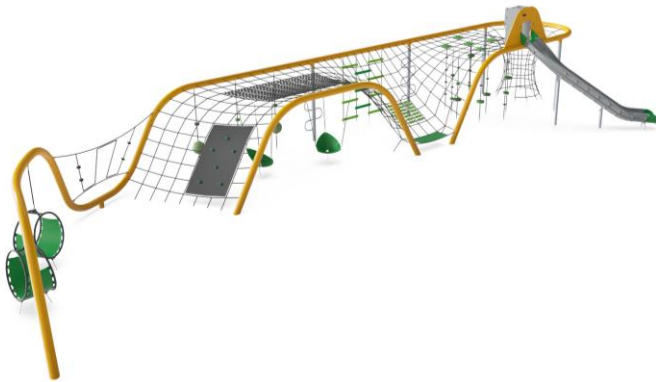

Complementary fitness structure surrounding the tower

# KOMPAN Design Studio **COROCORD** – INITIAL SKETCH

KNS8500847, US

## Safety Standard: ASTM

This loop was designed to fit on a playground where the customer wished for a wide variety of play activities for school age children – hanging spots, balancing, climbing, ladders, and a slide.

KNS8500850, US

## Safety Standard: ASTM

This eye-catching turtle design is packed with nets and sensory play elements. Suitable for older children, designed for a housing area,

KNS8500854, US

## Safety Standard: ASTM

A cube tower featuring the Native American and nature themed graphics was complemented with a cliff rider, to offer even a greater play variability for this housing area.

# KOMPAN Design Studio **COROCORD** – CONCEPTUAL SKETCH

KRS8500861, INT

This sketch combining play towers and coromesh net. A design suitable for school age children, focusing on climbing and balancing activities.

KRS8500866, US

An industrial tower with shipping theme sketched for a site near an old shipyard. It is an eye-catching design with climbing, great viewpoint and exciting sliding experience. Suitable for school age children.

# KOMPAN Design Studio **COROCORD** – INITIAL SKETCH

KRS8500762B, INT

## Safety Standard: ASTM

Designed for a school, this high-capacity structure offers a wide variety of physically challenging activities, as well as resting and social areas.

KRS8500862, CH

## Safety Standard: EN

A wristwatch design for a site in Le Chenit, near a museum dedicated to a famous watchmaker. The focus is on climbing and sliding.

KRS8500868, AS

## Safety Standard: AS

This impressive and huge complex of cube towers was designed for a premier hospitality center. Packed with play activities of all sorts, it is a great destination for children seeking adventure and thrill, but also for those who prefer less challenging play.

# KOMPAN Design Studio **COROCORD** – INITIAL SKETCH

KNS8500841, US

## Safety Standard: ASTM

Tower of Babel design packed with play activities for older children, mainly climbing and two thrilling slides.

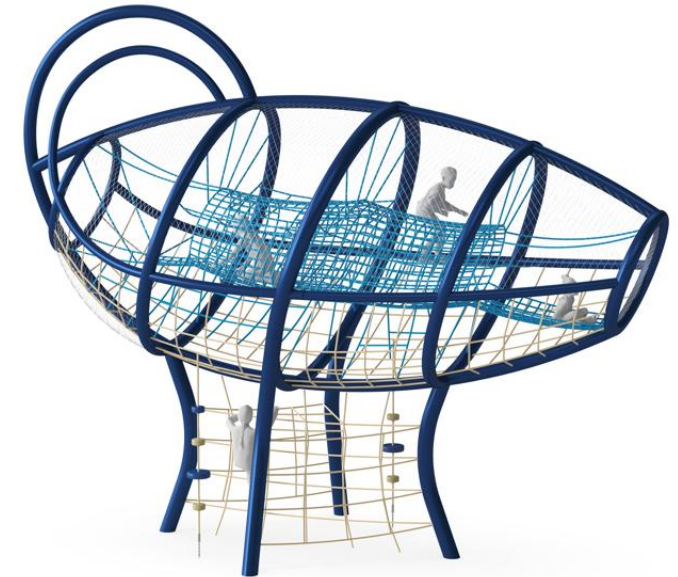

KNS8500845, FR

## Safety Standard: EN

This tower represents a volcano. It features all the play value of the Large Rope Tower. Challenging climbing, enhancing the motor skills and physical strength, great viewpoint, and long slide.

KNS8500851, NO

## Safety Standard: EN

A structure representing a sandnesgauken, a traditional clay flute first created in Sandnes at the beginning of the 19th century. The main features are climbing and balancing.

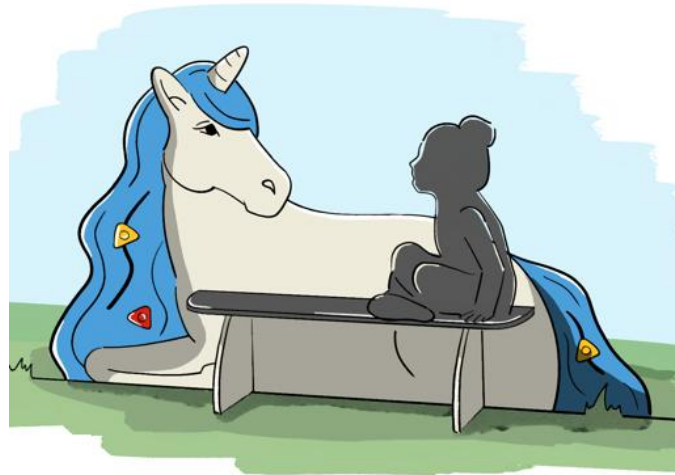

# KOMPAN Design Studio **MOMENTS** – CONCEPTUAL SKETCH

KMS9700855, DE

A dragon bench designed for a fairy tale themed playground in Drensteinfurt.

KMS9700856, DE

The second one depicts a cute unicorn. Their colorful and playful design creates a great space for children to gather and interact.

KMS9700859, SG

Inspired by the traditional bumboats used for transporting goods. It features a lot of manipulative play, hangout spots and a slide. Suitable for smaller kids.

# KOMPAN Design Studio **MOMENTS** – CONCEPTUAL SKETCH

KMS9700863, INT

This yurt is painted in colors mimicking the real yurts and adorned with traditional ornaments. The play value focuses on enhancing the fine motor skills with a number of manipulative play panels.

# KOMPAN Design Studio **MOMENTS** – INITIAL SKETCH

KMS9700825, US

## Safety Standard: ASTM

Two bees and pollinator towers for a themed park. First one a Barn with custom graphic design, a structure suitable for pre-school children, with the variety of manipulative and physical activities both on elevated and ground level.

KMS9700826, US

## Safety Standard: ASTM

The second pollinator themed tower, this time a Mega Deck Upper Deck for older kids, offering a variety of activities enhancing gross motor skills, slides and resting spots.

KMS9700836, US

## Safety Standard: ASTM

One of many structures for a town themed site. Adorned with lots of themed play panels and addons to enhance fine motor skills and the children's imagination; it also features two slides and climbing walls.

# KOMPAN Design Studio **MOMENTS** – INITIAL SKETCH

KMS9700838, US

## Safety Standard: ASTM

Another structure for the town theme, this time a police station and jail play tower. Themed play panels and climbing are the main features.

KMS9700845, US

## Safety Standard: ASTM

A shark tower for preschool children, crawling and sliding are the main activities, complemented with manipulative panels and talk tubes enhancing the communication and social skills.

KMS9700849, US

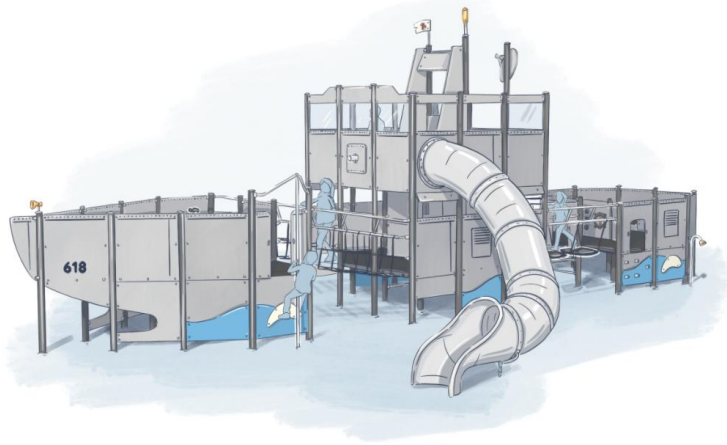

## Safety Standard: ASTM

A new addition to the space themed play equipment. With the Mega Deck as the base, it is a tower aiming at pre-school children. The chosen activities enhance the motor skills and strengthen muscles, while the custom graphic design supports the imaginative play.

# KOMPAN Design Studio **MOMENTS** – CONCEPTUAL SKETCH

KMS9700910, INT

Inspired by a real ship, this design was sketched for a playground in China. It features two slides, climbing wall, wackler bridges and a variability of play panels.

KMS9700915, DE

A combine harvester sketched for a farm themed playground. With the small slide, crawling tunnel and manipulative panels it is a structure suitable for pre-school children.

# KOMPAN Design Studio **MOMENTS** – INITIAL SKETCH

KMS9700873, SE

## Safety Standard: EN

A spooky playground. This playhouse creates a safe space for even the youngest children, encourages communication and role play, while the manipulative panels stimulate cognitive development.

KMS9700881, SE

## Safety Standard: EN

Designed for the same site, this cliff rider tower was upgraded with more play opportunities, some of them being a climbing net, banister bars and play panels.

KMS9700882, US

## Safety Standard: ASTM

A wheelchair accessible play tower adorned with print of local animal species. It features a small slide, hammocks and manipulative panels, making it suitable for pre-school children.

# KOMPAN Design Studio **MOMENTS** – INITIAL SKETCH

KMS9700904, FR

## Safety Standard: EN

XL Giant packed with activities. It depicts local setting as well as historical significance of the location. Main features are the track ride, tall slide, and a variation of ground level activities.

KMS9700916, INT

## Safety Standard: EN

As it has become popular to celebrate children's birthdays in parks, we have been asked to design a few structures to support the theme. One of them being this truck with engaging colorful panels and manipulative play supporting turn taking and imaginative play.

MSC680677, US

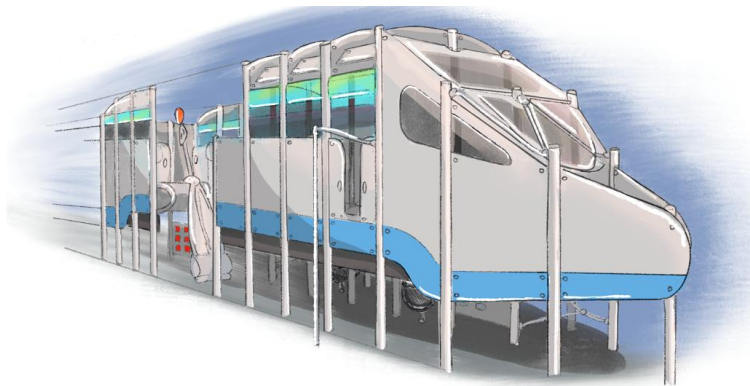

## Safety Standard: ASTM

Designed for a themed playground, this ambulance is a structure ideal for play pretending, supporting social and communication skills.

# KOMPAN Design Studio **MOMENTS** – CONCEPTUAL SKETCH

KMS9700816, DE

A futuristic train sketched for a themed playground. It has a track-ride, two slides, and custom panels.

KMS9700820, FR

A Sensory Giant with nature themed graphic design. This Giant packed with activities both on the ground level and inside the tower is a great place for children to enhance their motor, balance and communication skills.

# KOMPAN Design Studio **MOMENTS** – INITIAL SKETCH

KMS9700794, US

## Safety Standard: ASTM

Designed for a beachfront playground, this lighthouse and ship structure creates a fun, engaging space for pre-school children.

KMS9700797, FR

## Safety Standard: EN

This food truck was designed for a primary school playground with many custom street food play panels and addons, it enhances imagination, communication and collective play. Suitable for pre-school children.

KMS9700798, MY

## Safety Standard: EN

A double tower adorned with mountains and river graphics was requested for a new housing area. The choice of play value was limited by the size of the area, thus most of the activities are placed under the towers.

# KOMPAN Design Studio **MOMENTS** – INITIAL SKETCH

KMS9700800+KNS8500632B, DE

## Safety Standard: EN

This Moments and Corocord combination with safari and lions' theme was designed for a new playground with an exciting and challenging structure for all school age children, full of fun activities like climbing, sliding and balancing.

KMS9700802, US

## Safety Standard: ASTM

This x-ray panel is a part of a science themed playground for a school. Fun and education in one.

KMS9700810, SE

## Safety Standard: EN

Funfair themed Double Mega Deck. The towers offer a variety of activities suitable for children from the age of four – crawling, climbing, sliding and spots for resting and gathering.

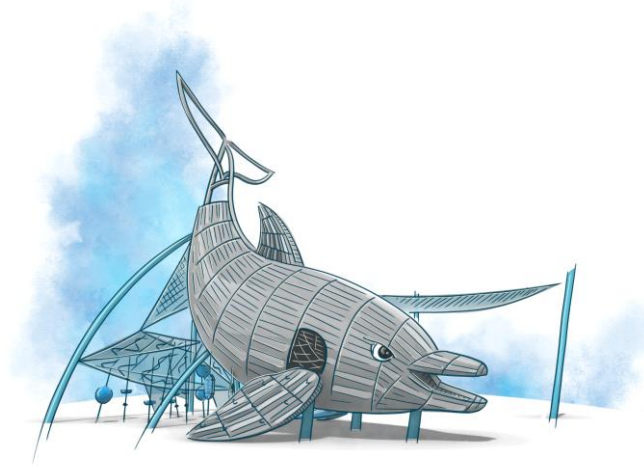

# KOMPAN Design Studio **ROBINIA** – CONCEPTUAL SKETCH

KRS8201279, DE

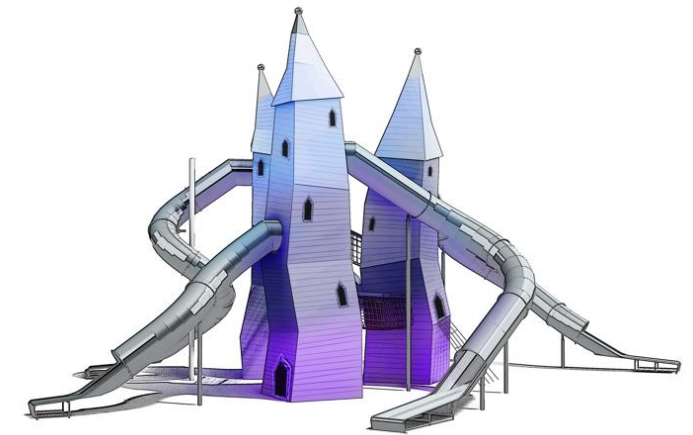

This Airport Tower with approximate height of 8 meters was requested by a customer for an airport. The combination with bright colors create an eye-catching structure.

KRS8201286, US

Another Big Dolphin redesign where we adjusted the overall look of the Dolphin and added more play activities to occupy as many users as possible.

KRS8201287, INT

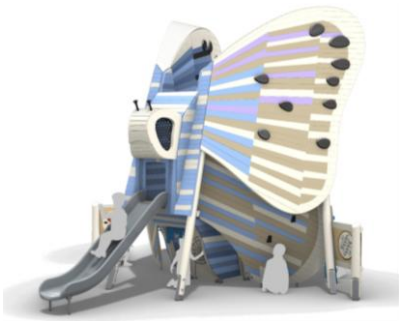

A Fantasy Castle. We adjusted our standard towers to look more organic and sculptural with long curved SS slides.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

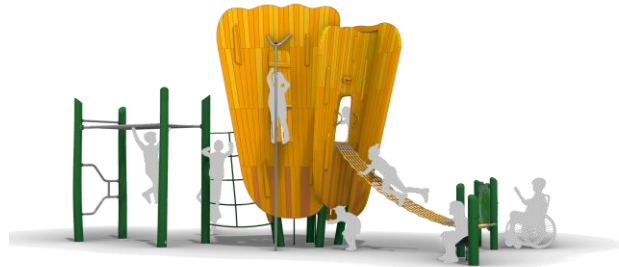

KRS8200335T, INT

## Safety Standard: EN

A new color variant for our preschool age and inclusive Butterfly. This design has been updated to EN standard.

KRS8201245, US

## Safety Standard: ASTM

This beautiful and bright Poppy Flower offers many climbing activities for kids aged 5 – 12 years including inclusive play value.

KRS8201266, INT

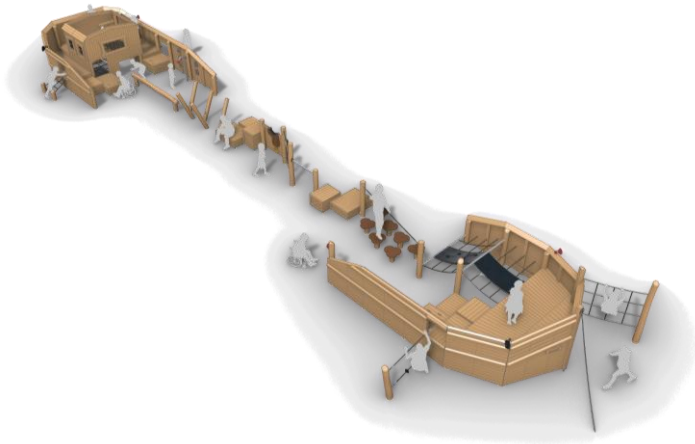

## Safety Standard: EN

A wooden play Hut featuring an impressive nearly 10-meter-long bridge, complemented by a long plastic tube slide.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

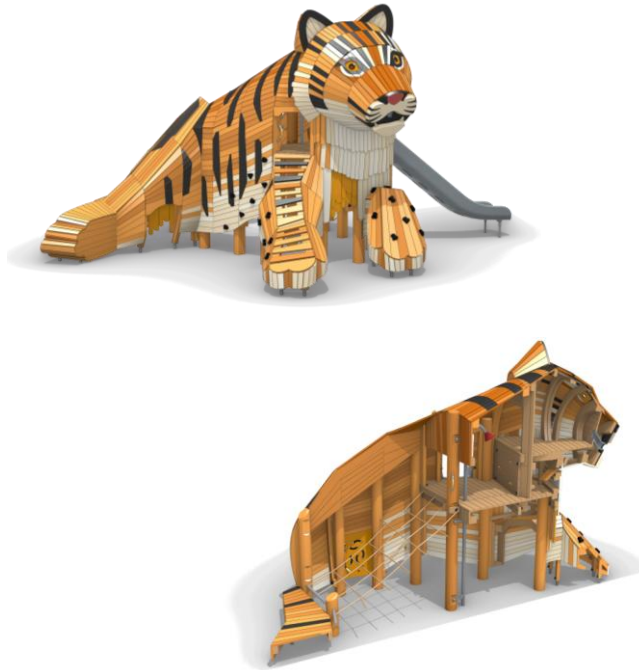

KRS8201267, US

## Safety Standard: ASTM

A Historic Canal Boat. The site was designed to evoke a late 1800s boatyard, with a strong focus on educational value over play.

KRS8201268, US

## Safety Standard: ASTM

A Tiger play sculpture. Based on an existing design, we adjusted the color combinations and refined the face structure to better reflect the animal's characteristics.

KRS8201288, DE

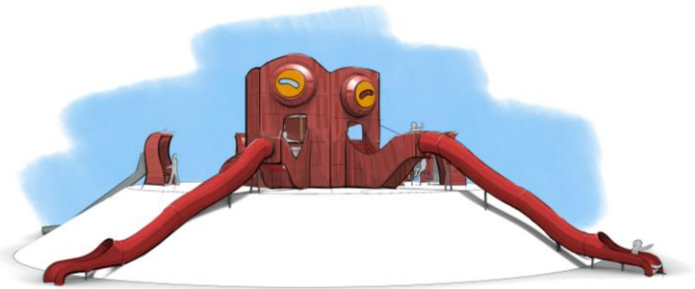

## Safety Standard: EN

Designed as a playful character, this small cartoony bird features a pilot's cap, goggles, and a scarf. Based on an existing structure, we used a vibrant blue color and refined the details to enhance the overall look.

# KOMPAN Design Studio **ROBINIA** – CONCEPTUAL SKETCH

KRS8201300, FR

A special feature about this Octopus on the hill are the 5 tentacles recreated as slides. There are two PE tube slides and three SS slides.

KRS8201301, US

Two beautiful Cranes with an astonishing height of 5,5 meters. The nest underneath offers additional play value; transfer net, play panels and tunnel.

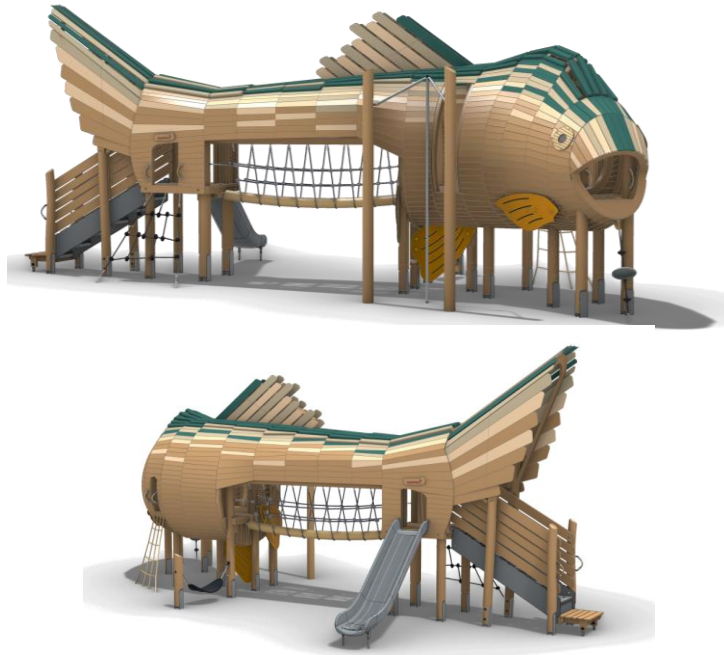

KRS8201317, FR

A simple design of a Leaning Tower recreated for school age 6 – 12 years in the style of a treehouse.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

KRS8200546S, FR

## Safety Standard: EN

This 12-meter-long Humpback Chub is definitely a big fish! It features coconut rope bridge inside and membrane fins for a playful, tactile experience.

KRS8201183, US

## Safety Standard: ASTM

This structure features lianas and green grips for climbing and balance. Nature inspired design for a new housing area.

KRS8201192, US

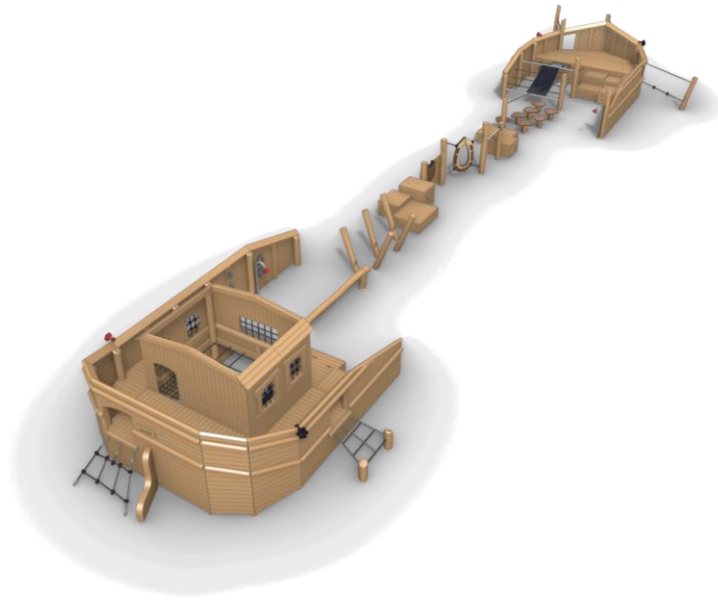

## Safety Standard: ASTM

Second structure for the same site, bird houses interconnected via enclosed rope bridges. Great gathering spot for children to improve their communication skills and practice turn taking.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

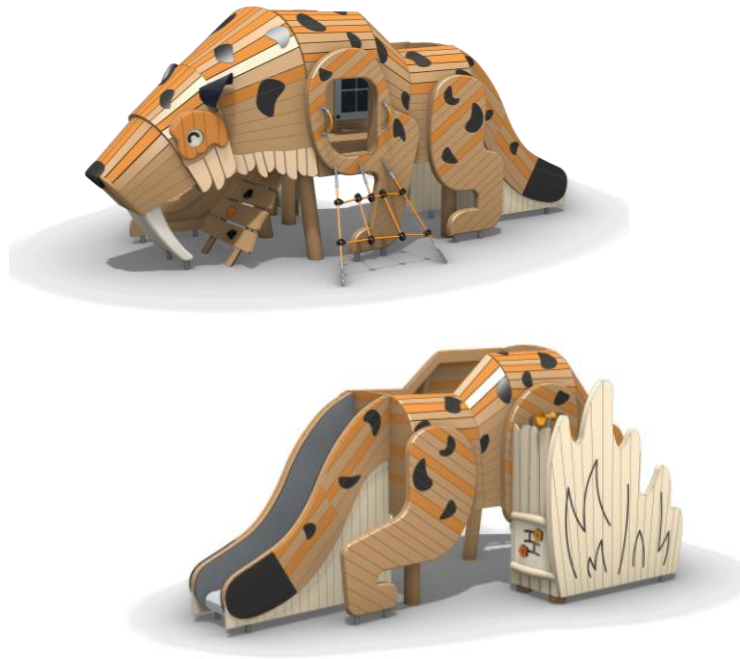

KRS8201267, US

## Safety Standard: ASTM

A special historical Canal Boat. This non-traditional design places more emphasis on educational value than on play.

KRS8201299, US

## Safety Standard: ASTM

A Sabertooth Tiger designed for 2-5 years age group with additional inclusive features to keep ASTM ADA standard.

KRS8201302X, SE

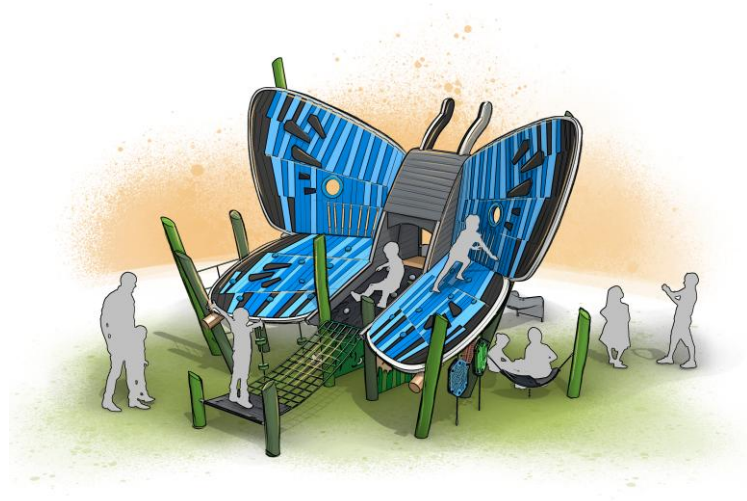

## Safety Standard: EN

A new version of our older project. Magnificent two towers with a lot of play value and colorful look.

# KOMPAN Design Studio **ROBINIA** – CONCEPTUAL SKETCH

KRS8201252, FR

This beautiful butterfly was inspired by a protected species in France known as “Azuré du Serpolet”. Nature and butterfly theme creates a perfect play area for children from the age of four.

KRS8201260, FI

An updated version of the last year’s concept sketch with more details, play value and additional structures.

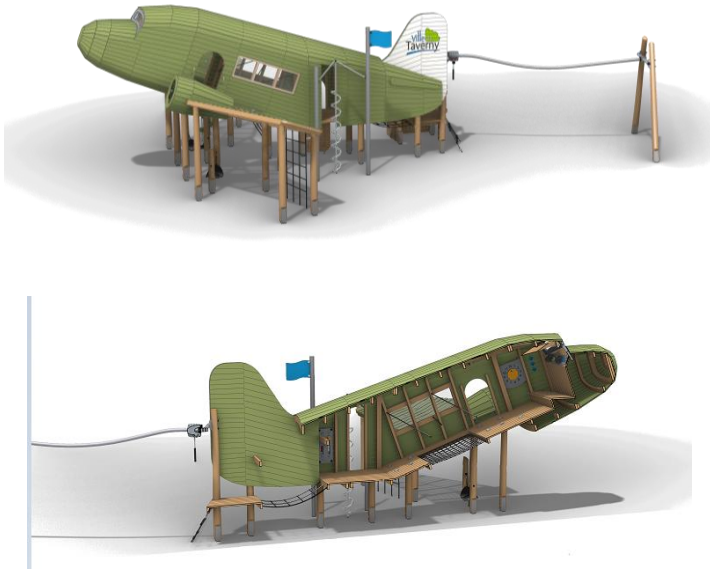

KRS8201275, SE

Viking themed playground featuring many different activities such as Space Net, climbing grips, shield carousels or stainless-steel slide.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

KRS8200264A, FR

## Safety Standard: EN

An older design recreated with surface mounting, PE slide and an attached logo to the wing of the airplane.

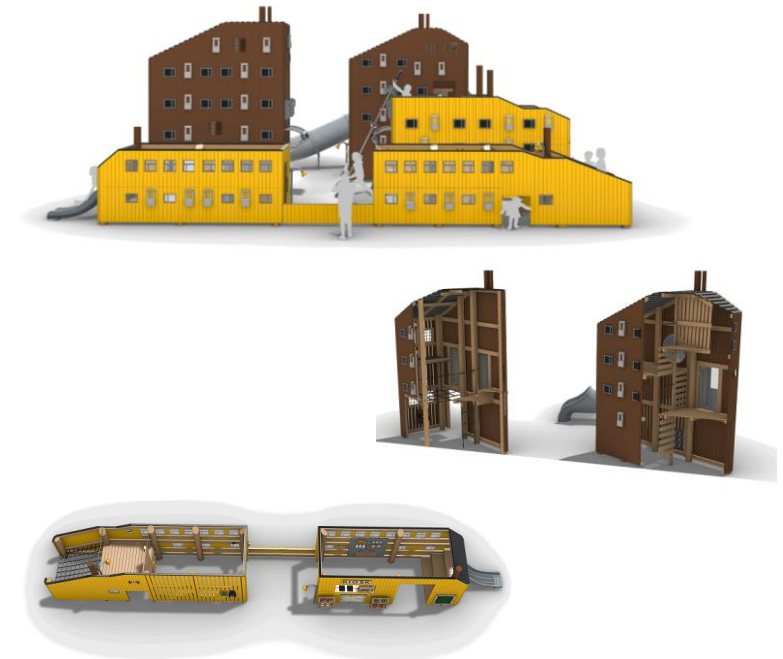

KRS8200829Y, FR

## Safety Standard: EN

A 6-meter-tall Volcano sculpture featuring 10 different play activities that can occupy 42 users in total. Special additional adjustments had to be done due to the extreme weather conditions.

KRS8201144+45, SE

## Safety Standard: EN

Almost a replica of the buildings designed by architect Ralph Erskines in Kiruna Municipality, SE.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

KRS8201262, INTERN

## Safety Standard: EN

Agility Trails combined with simple bear sculptures featuring a total of 15 play activities such as balancing logs, hammocks, play panels or climbing activities.

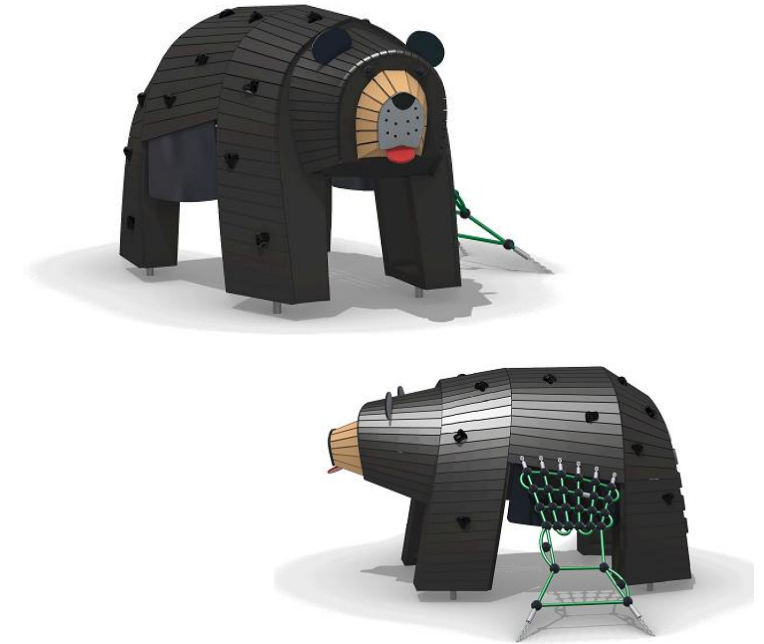

KRS8201264, US

## Safety Standard: ASTM

A beautiful and inclusive Snowy Egret sculpture with attached ramp from the side, designed for pre-school age group.

KRS8201270, US

## Safety Standard: ASTM

A small and simple Black Bear sculpture. This type of bear is a very common species in this area.

# KOMPAN Design Studio **ROBINIA** – INITIAL SKETCH

KRS8201310, US

## **Safety Standard: ASTM**

Our classic – a large Pirate Ship with an added nest and a ramp for wheelchair users to enhance inclusivity. It features a total of 11 different play activities.
